Kansas Man May Revolutionize Stove Making.

WICHITA GETS

Which Will Test Utility of New Invention.

Experiments commenced in Wichita vesterday may revolutionize the entire Charles Fishbaugh, of Anthony, came to his arm. It contained a crude drawing of a heating stove he has invented and warrant sworn out for Mr. L. F. Dugan, door was cleared, the crowd danced to the Wichita foundry was not slow in takand not a few think there is a fortune boughas avenue. He stated that they had no permit from the city and that they were not putting up new wires and poles but were singaly removing some parts of the system, that was not needed.

Mr. Evans, the city electrician, was next called that he had is sued no permit to anyone to do any work of sued character and stated that none had here asked for.

to this city.

N. Jackson, Danville, Ill., writes: "My daught was affleted with dropsy of the feet and was an invalid. She would sit in a chair, but in the winter time would suffer awfully from the cold near the slving relief. She tried FOLEY'S HONEY and to surfer awfully from the cold near the floor. This caused her husband to begin a series of experiments with stove heating and his present destants that he had here asked for.

(3. Gehring, 40) E. Douglas; Geo. Van Werden, ES N. Main, Wichita Drug Co., had here asked for. Fishbaugh is quite a scientist and his stove is the result of scientific applicaion. He thinks it will, to a great ex-City Attorney Helm then called the Railroad People Going to Galveston tent, prevent disease, as will be seen further on.

The major fined Mr. Dugen in the sum of the Santa Fe. In the other were Mr. draft hole of the under top is in front the case to the district court, where it Chicago and Eastern Himels and Mr. J. the heat meets obstruction in the sucthe case to the district court, where it will be given a hearing in the latter part of February.

Neither Mr. Dupan nor Mr. Fergison would make any statement as to the effect of the decision on any improvements that the company might need to make. The entire party were going that the company might need to make the first party were going into the families. The entire party were going through the first party were going the families. The entire party were going through the stove pipe. This, Mr. Fishbaugh claims, will conserve a big percentage of the heat from going through the first make the families. The entire party were going into the stove pipe. This, Mr. Fishbaugh claims, will conserve a big percentage of the heat from going through the stove from bottom to the board of trusters of the church, and picasare trip. They will remain in the southern climate until the weather bear the cold nit from the foor. These pipes takes the cold nit from the foor. These was given a salary of slow as soon as the pipe shave what might be called stop-eocks about half way up and by the use church felt abje to pay it. A large of these the cold air can be turned into number of people have joined the church cisively that the Missouri and Karsas Open Season for Southern Cattle Will the stove, making a not blast which concerning that the Missouri and Karsas Close on That Day.

Open Season for Southern Cattle Will the stove, making a not blast which concerning the same of his work here, and he has sumes the smoke so that from the cuts made many friends in the city. A short side you can see no smoke going through time ago he asked for the amount of ern cattle will close January is and after the chimney and would not know there calary promised him, as he believed the is a fire in the house. If it is not de- church was well able to pay him that the fire alarm system it was stated that time all cattle coming from south the old rystem would at once he but in fire least once the cold rystem would at once he but in the old rystem would at once he but in the old rystem would at once he but in the federal quarantine line will be impected by the State Livestock Sanitary commission.
